NO.3 When a project is created in Rational Portfolio Manager, you have two options. Which one of the

following choices represents the two options?

A. Work (effort-based) or Duration (duration-based)

B. Project (Work-based) or Proposal (effort-based)

C. Time (effort-based) or Expense (cost-based)

D. Task (template-based) or New (unstructured-based)

Answer:A

NO.4 Which one of the following statements is not correct with respect to iterative development?

A. With the iterative approach, the emphasis of each workflow will vary throughout the

lifecycle.

B. The iterative approach recommends that you address risk early and continuously.

C. Iterative and incremental development requires project managers to consider each iteration as the

same project, to be managed in the context of the final deliverable.

D. Several applications of the iterative cycle are sequentially arranged to compose a project.

Answer: C

NO.5 Rational Portfolio Manager security settings provide a flexible way to control who can view or change

information. There are two levels of security within the tool. Which one of the following choices correctly

describes these two levels of security?

A. Resource-level security and Role-based security

B. Project-level security and Role-based security

C. Project-level security and User-based security

D. Role-level security and Group-based security

Answer:A
